A LIFE [DIVIDED]

PASSENGER

HEART ON FIRE 00333

i don't wanna talk
when you don't hear me
i don't wanna love
if you can't feel it
and i don't wanna smile
when you're laughing about me
and i don't wanna die
when you don't care at all
do you care at all?

i set your heart on fire
i'll do what i can
to be more than i am for you
tonight

i don't wanna call
when you're not listening
i don't wanna crawl
if you're not watching
and i don't wanna fly
when you ain't coming with me
and i don't wanna die
when you don't care at all
do you care at all?

for some reason it's not how it's sup-
posed to be
feels like searching for the way in a
one way street
god given but a devil's mistake
i'll be your slave if you just let me
stay

FOREVER 00421

like a stone in troubled water
like a grain of sand inside the sea
like the land between the borders
like the blood inside of you and me
it all lies in the hands of misery

no one can say why it is how it is
we keep falling astray
- in the end we just exist
one thing you should know
- we ain't gonna live forever

like a king without a treasure
like a cage without a bird to flee
like a tear drop in the desert
like the man inside of you and me
it all lies in the hands of misery

ANYONE 00430

live everyone should live
everyone should be the same
as simple as it is

give everyone should give
everyone should give a part
'cause it does matter

what's your excuse?

anyone lives by the ocean
while anyone drowns in the sea
and anyone is breathing the ashes
of conspiracy

miss everyone should miss
the reason for his calm
the reason for his bliss

this this couldn't end up like this
just like a servant's bound to fall
we're about to lose it all

what's your excuse?

anyone
didn't believe that
we're about to lose it all
didn't believe that
we're about to lose control
didn't believe that we were wrong
didn't believe it, we didn't believe it

WORDS 00330

we live somewhere
in between the cycles
abandoned and distained
we betrayed all
of our good disciples
got lost along the way

words don't come that easy
words expose the secret
words became a lie
i only want you to long for me
and make you see

we live somewhere
in between the distance
where we've been left alone
we denied all
of their wise assistance
searching for a home

bring me down

HEY YOU 00345

is there really something
here that's worth fighting for ?
could you show me
something on this earth
that you adore ?
is it all just a waste of time ?
do i lie when i say that i don't mind ?
do we come from out of space?
am i the lie that i create ?
does it really matter in the end anyway ?
if we give a fuck about ourselves ?

hey you - what do you do
when everything comes back
into your days again ?
would you say you're not responsible ?
hey you fool - what do you do
when everything is slipping
out your hands again ?
would you say you're not responsible?

how the hell could you explain to me
what's big or small?
does it make any sense to you
that we live at all ?
would you say that we all are blind ?
full of broken dreams
inside narrow minds ?
do you look at the sky at night?
do you still question its size?
is there really something
out of reach and out of sight ?
that even gives a shit about our lives?

i wonder if we're ever gonna be
so free to see
the contribution that we pay
to our society
i know we'll never be
so why the fuck are we here?
Is this everything?

DOESN'T COUNT 00410

i see the river's running
like a bloody fountain to the sea
i hear the mob is coming,
they come running after me
i feel my heart starts pumping
as they start hunting
looking out for me and i see
a thousand wasted,
graceless, faceless enemies

i think you got me wrong
could you listen to what i say
i'm already down
but it doesn't count anyway
i think you really got me wrong
i'm not the one who is to blame
i'm already down
but it doesn't count anyway

i see the moon is fading,
the light stops changing
as i flee
i fear that i can't make it,
my will is breaking
and i fall on my knees
i feel the earth is shaking,
the ground starts quaking
suddenly
and i see a thousand wasted,
graceless, faceless enemies

nothing left to fear
free from all up here

0460

SAVE ME 00407

it's the dying of all that you believe
take a rest and enjoy the apathy
here's the master of sensation
taking over in every nation

welcome the darkest age of ages
i see them running into their little cages
something had changed the system
that can't wait to start the end

tied to machines
to get their wisdom
while another part of you
just cries for freedom
they got you, inhale you,
they make you, they break you
and all you want is nothing
but more of their fuel
we got no reason
but the clearest orders
to illuminate our senses
and to keep the borders
safe from all harm,
we ring the alarm
the only way to get us
is to steal us our arms

save me - my world seems to end here
take me back home
come help me - i'm drowning in this river
take me to its shore

take a look inside your black tomorrow
with stones inside your mind
but without any sorrow
they'll get you, they'll need you,
they'll break you, they'll feed you
without any resistance you will be their tool
here is the centre of a new world dawning
the systematic pressure sets a global warning
on those who attack, on those who fight back
the only way to get us is a shot in the head

now what was said is done -
the sky darkened its face
and we all are on the run -
but i guess there's no escape
til the dawning comes we try to find a way
through the rain of a thousand bombs

OTHER SIDE 00432

here is a warning
about how it's going to be
to wake on a morning
when nothing is left to believe
miserable dawning
and i'm calling out your name
but you aint coming
there's a chest of dreams
in your way

in your eyes -
i'm falling deeper every night
in your eyes -
i'm losing every single fight
but you can't read my mind
something is coming,
there's a change in sight
and you will be longing
for one second on my side

life doesn't move me -
seems like every day i die
but where's the hand
that guides me
to the other side
time keeps on moving -
as days just pass me by
is there something
waiting for me -
on the other side

in your mind -
you're sorry 'bout your life
in your mind -
you're worried all the time
so lets give up the fight
something is coming,
i swear i see the light
and you will be longing
for one second at my side

lost between the light
im not trying to survive
this is the time
we all are bound to die

CHANGE 00445

cut me into comfort portions
in the name of common fortune
tell me bout your life a while
then suck me out until im dry

your meaningless wisdom
and fake ass boredom
you're the king of the world
and the queen of whoredom

do you smell that
there is something
in the air tonight
im gonna burn your house
and bury you inside

ill bury you inside
ill bury you alive

change this world for me
you know that im not the one
to disagree
change this world for me
you know that im not keen
on being free

side by side we stand together
you make me feel like i cant do better
im bad in what i love the most
the worst of all from coast to coast
so take your time my lovely brother
as soon as im on you will have to suffer
do you smell that there is something
in the air tonight
im gonna burn your house
and bury you inside

you're the chosen one
you're the only son
come and let me die again

turn this black into white
make me live through your lies
come and let me die again

SOUNDS LIKE A MELODY 00432

THE END 00530

this is the end my dear
today were gonna die
theres no way out of here
you better stop to try

time — wasted time
life is a lie

this is the end my love
it's time to say goodbye
theres no escape for us
no chance to save our lives

life — wasted life
time is a lie

welcome your demons
killing your freedom
welcome the dawning
that shines through the pouring rain

today's the day my friend
where no one hears our cries
were waiting for the end
cant find a place to hide

time — wasted time
life was a lie

i dont like this world here anyway
i think we gotta find another place
shut your eyes ill take you far away
stop the crying — stop the crying

A LIFE DIVIDED:

Jürgen Plangger (Voice)
Erik Damköhler (Guitars, Programmings)
Karl Fuhrmann (Drums)
Tobi Egger (Bass)
Tony Berger (Guitars)
Mike Hofstätter (Guitars)
